Kristyna Dostalova is a talented and passionate artist based in Melbourne. Kristyna brings her feelings to life through oil or acrylic on canvas, her preferred medium for its textures and viscosity. Her style is often described as abstract, but she also enjoys painting anything that inspires her.

She is self-taught and honed her craft as a child growing up in the Czech Republic. The vibrant landscapes and flora of Australia inspired Kristyna to fully embrace her passion for art, which is reflected in her current work inspired by living in Sydney.

This artwork is inspired by the breathtaking views of Shelley Beach in Collins Bay, Portsea. This painting captures the vibrant coastal landscape, featuring stunning homes facing the ocean, the calm waters of the marina with boats anchored in the bay, and the iconic beach boxes that line the sandy shore.
