Kristyna Dostalova is a talented and passionate artist based in Melbourne. Kristyna brings her feelings to life through oil or acrylic on canvas, her preferred medium for its textures and viscosity. Her style is often described as abstract, but she also enjoys painting anything that inspires her.

She is self-taught and honed her craft as a child growing up in the Czech Republic. The vibrant landscapes and flora of Australia inspired Kristyna to fully embrace her passion for art, which is reflected in her current work inspired by living in Sydney.

This artwork captures the crystal-clear waters and vibrant greens of Port Phillip on a summer day. Inspired by the beautiful contrast of the sea and coastal vegetation, this mini painting brings out the calm, natural beauty of the bay.
