Sarah Rowe, known as "Miss Moresby," is an artist specialising in textile design and painting. With a fine art background, she finds beauty in everyday objects and transforms them into vibrant works. Her bold style features organic botanical forms and abstract motifs, inspired by the patterns and landscapes around her. Through her art, Sarah explores colour and pattern to create striking, visually engaging compositions. Her versatility and dedication continue to make a distinctive mark in the art world.

Painted in acrylic LEAFY AWNING celebrates foliage and flowering forms constructed through a process of detailed mark-making and layered pattern, creating visual rhythm across the canvas. Bold contrasts of blue, green, yellow and orange bring energy to the work, while references to both garden plants and textiles blur the line between observation and invention.
